## Objective

**Creative and detail-oriented Frontend Developer** with 4 years of experience designing and building user-centric interfaces for web and digital platforms. Proficient in React.js, JavaScript, and TypeScript, with a strong foundation in UI/UX principles and a background in visual design using Adobe Creative Suite (Photoshop, Premiere Pro, After Effects). Skilled in translating design concepts into responsive, interactive web applications. Also experienced in Python and C++ for technical problem-solving. Seeking a role to leverage both design intuition and frontend expertise to deliver seamless user experiences and innovative web solutions

---

## Core Competencies

**Web Design & Development:** Responsive website design, React, Typescript, HTML/CSS, JavaScript, Api integrations

**Programming:** Python, C++ for scripting and automation in design workflows

**Software Proficiency:** Adobe Photoshop, Premiere Pro, After Effects and Adobe Illustrator,

**Other Skills:** Video editing, animation, wireframing, prototyping and project management.

**Soft Skills:** Creativity, problem solving, collaboration, time management and attention to details.
